EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carla Weyand on 2 March 2004.

The application has been amended as follows:

Claim 13. Please delete the phrase "transcriptional activator protein" and replace with – having transcriptional activation activity--. Please delete the phrase "of claim 8" and replace – fully complementary to the mRNA of claim 6--.

Please cancel claims 23 and 25-36.

Claims 1-7 and 14-17 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 18-22, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Process claim 18-22 hereby rejoined and fully examined for patentability under 37 CFR 1.104. Claims 25-36, not directed to the process of making or using the patentable product, will not be rejoined as they depend from the product of cancelled claim 24.

Applicant should note that claim 7 as recited in the Appeal Brief of 31 December 2003 and in the Afterfinal Amendment of 25 September 2003 contains language not recited in the official claims. This extra language appears to have been inadvertently cut from claim 16. Thus, original claim 7 filed is the official claim of the present application.
